All Carroll Septic Design, LLC Jason Carroll PE	515-218-5615	Earlham, IA

Union County Requires the Soil Analysis/Perc Test to be performed by a professional soil scientist or professional licensed engineer. This person must show experience and knowledge of soil morphology and septic system design/code to conduct adequate soil analysis/perc test.

Permits will not be issued until soil analysis/perc test results have been returned to the Union County Environmental Health Office.
